

Standard Sindhi Braille

the fifty-two letters

SINDHI LANGUAGE AUTHORITY · 7 NOVEMBER 2016
PERSO-ARABIC · PAKISTAN · 63 CELLS

Every letter of Sindhi sits inside the six-line structure Louis Braille published in 1829. Each line takes the ten shapes of the first and moves them: **add dot 3, add dots 3 and 6, add dot 6, lower every dot by one row**. Nothing in this sheet was designed. It was found, in the committee's own printed book, and set here in the order the structure already had.

1 FIRST LINE

9

ا 1	ب 12	ج 245	چ 14	د 145	ف 124	گ 1245	ه 125	ي 24
--------	---------	----------	---------	----------	----------	-----------	----------	---------

2 ADD DOT 3

11

ت 2345	ث 135	پ 1234	ر 1235	س 234	ق 12345	ک 13	ڪ 13-236	ل 123	م 134	ن 1345
-----------	----------	-----------	-----------	----------	------------	---------	-------------	----------	----------	-----------

3 ADD DOTS 3 6

9

خ 1346	ٺ 1236	ذ 2346	ز 1356	ص 12346	ط 23456	ظ 123456	ع 12356	ڳ 13456
-----------	-----------	-----------	-----------	------------	------------	-------------	------------	------------

4 ADD DOT 6

10

ٿ 1256	ٺ 246	ٺ 1456	ڇ 16	ح 156	ڙ 12456	ش 146	ض 1246	غ 126	و 2456
-----------	----------	-----------	---------	----------	------------	----------	-----------	----------	-----------

5 LOWER EVERY DOT

8

ٻ 26	ڀ 23	ڄ 356	ڇ 35	ڍ 256	ڦ 235	ڱ 2356	ھ 236
---------	---------	----------	---------	----------	----------	-----------	----------

6 THE REMAINDER

5

ڙ 34	ڊ 346	ڻ 3456	ء 3	آ 345
---------	----------	-----------	--------	----------

THE SEVENTH LINE
CARRIES NO LETTER

4	45	456	5	46	56	6
---	----	-----	---	----	----	---

These seven cells are reserved. Six of them open a Grade 2 contraction series, one is the letter sign, and the last is a group prefix. No Sindhi letter is written with any of them.

ONE SENTENCE, TWICE · AT TRUE SIZE · 2.5 MM DOT PITCH · 6.2 MM CELL PITCH
